About Volt

Volt Power Group Limited (ASX: VPR) is a power generation technology and infrastructure asset / equipment developer and owner.

The company is primarily focused on:

- the enhancement and commercialisation of its **ATEN Technology** - a low emission waste heat to electricity generation solution; and
- the expansion of its broader renewable and low emission power generation and infrastructure asset / equipment footprint.

ATEN Technology comprises a modular, power generation equipment package capable of harvesting 'low' grade industrial waste heat to generate zero emission electricity. ATEN generated electricity is expected to significantly reduce 'energy intensive' industry operating costs via the displacement of grid sourced electricity or fossil fuel usage associated with electricity generation.

The global industrial complex generally vents 'low' grade waste heat to atmosphere. The quantity of unexploited waste heat created by global industry presents an outstanding opportunity for the commercial roll-out of the ATEN Technology.

The ATEN's simple, high efficiency design and modular configuration - developed to maximise its integration capability - provides a low capex, uniquely compatible and scalable solution for the exploitation of 'low grade' industrial waste heat. Volt's priority target markets for the commercialization of the ATEN Technology include the resources and industrial processing sectors.

Volt's largest shareholder is **ECM Pty Ltd (ECM)**. **ECM** is one of Australia's largest, privately owned construction and maintenance companies servicing clients in the mining, oil and gas, infrastructure and power generation sectors. The business has a national footprint with extensive project execution and delivery capability having completed the construction and commissioning of power stations and processing infrastructure across mainland Australia for 30+ years.

The Company's office is co-located at the ECM headquarters and fabrication facility - 20kms south of the Perth CBD in Henderson, Western Australia.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
